5. contact with co-workers on or off your job...				
6. contact with work superiors on or off the job				
7. activities with your immediate family.....				
8. activities with other relatives.....				
9. activities with close Negro friends.....				
10. activities with close white friends.....				
11. church activities.....				
12. neighborhood activities.....				

Suppose that you are ready to buy a house to live in. You have found three houses that are especially attractive and of the same price and quality.

House 1 is in an all-Negro neighborhood

House 2 is in a 50% mixed Negro-white neighborhood

House 3 is in an all-white neighborhood

Mark with a check your first choice in buying one of these houses where:

- I. the social-economic levels of all three neighborhoods are equal
Buy House 1 _____ Buy House 2 _____ Buy House 3 _____
- II. the social-economic levels of the Negro-white and all-white neighborhoods are equal but the level of the all-Negro neighborhood is higher
Buy House 1 _____ Buy House 2 _____ Buy House 3 _____
- III. the social-economic levels of the all-Negro and all-white neighborhoods are equal but the level of the Negro-white neighborhood is higher
Buy House 1 _____ Buy House 2 _____ Buy House 3 _____
- IV. the social-economic levels of the Negro-white and all-Negro neighborhoods are equal but the level of the all-white neighborhood is higher
Buy House 1 _____ Buy House 2 _____ Buy House 3 _____

Suppose that you wish to join a church in your neighborhood. There are three churches of your faith, having comparable facilities, seeking your membership.

Church 1 has an all-Negro membership

Church 2 has a 50% mixed Negro-white membership

Church 3 has an all-white membership

Mark with a check your first choice in joining one of these churches where:

- I. the social-economic standings of all three church memberships are equal
Join Church 1 _____ Join Church 2 _____ Join Church 3 _____
- II. the social-economic standings of the Negro-white and all-white church memberships are equal but the standing of the all-Negro membership is higher
Join Church 1 _____ Join Church 2 _____ Join Church 3 _____
- III. the social-economic standings of the all-Negro and all-white church memberships are equal but the standing of the Negro-white membership is higher
Join Church 1 _____ Join Church 2 _____ Join Church 3 _____
- IV. the social-economic standings of the Negro-white and all-Negro church memberships are equal but the standing of the all-white membership is higher
Join Church 1 _____ Join Church 2 _____ Join Church 3 _____

Suppose that you wish to join a local club which sponsors educational and recreational events for adults in the area. There are three such clubs, having comparable facilities, seeking your membership.

Club 1 has an all-Negro membership

Club 2 has a 50% Negro-white membership

Club 3 has an all-white membership

Mark with a check your first choice in joining one of these clubs where:

- I. the social-economic standing of all three club memberships are equal
Join Club 1 _____ Join Club 2 _____ Join Club 3 _____
- II. the social-economic standings of the Negro-white and all-white club memberships are equal but the standing of the all-Negro membership is higher
Join Club 1 _____ Join Club 2 _____ Join Club 3 _____
- III. the social-economic standings of the all-Negro and all-white club memberships are equal but the standing of the Negro-white membership is higher
Join Club 1 _____ Join Club 2 _____ Join Club 3 _____
- IV. the social-economic standings of the Negro-white and all-Negro club memberships are equal but the standing of the all-white membership is higher
Join Club 1 _____ Join Club 2 _____ Join Club 3 _____

Suppose that you must make frequent visits to a hospital for a course of treatment which requires considerable medical skill. There are three hospitals which are properly equipped and ready to give you this treatment,

Hospital 1 has an all-Negro medical staff

Hospital 2 has a 50% mixed Negro-white medical staff

Hospital 3 has an all-white medical staff

Mark with a check your first choice in going to one of these hospitals where:

- I. the medical reputations of all three hospitals are equal
Go to Hospital 1 _____ Go to Hospital 2 _____ Go to Hospital 3 _____
- II. the medical reputations of the Negro-white and all-white hospitals are equal but the reputation of the all-Negro hospital is higher
Go to Hospital 1 _____ Go to Hospital 2 _____ Go to Hospital 3 _____
- III. the medical reputations of the all-Negro and all-white hospitals are equal but the reputation of the Negro-white hospital is higher
Go to Hospital 1 _____ Go to Hospital 2 _____ Go to Hospital 3 _____
- IV. the medical reputations of the Negro-white and all-Negro hospitals are the same but the reputation of the all-white hospital is higher
Go to Hospital 1 _____ Go to Hospital 2 _____ Go to Hospital 3 _____

Suppose that you have a child of elementary school age. There are three elementary schools available in the neighborhood, all having comparable facilities,

Elementary school 1 has an all-Negro student population

Elementary school 2 has a 50% mixed Negro-white student population

Elementary school 3 has an all-white student population

Mark with a check your choice for sending your child to elementary school where:

- I. the educational standards of all three schools are equal
Choose Elementary school 1 _____ Choose Elementary school 2 _____
Choose Elementary school 3 _____
- II. the educational standards of the Negro-white and all-white schools are equal but the standard of the all-Negro school is higher
Choose Elementary school 1 _____ Choose Elementary school 2 _____
Choose Elementary school 3 _____
- III. the educational standards of the all-Negro and all-white schools are equal but the standard of the Negro-white school is higher
Choose Elementary school 1 _____ Choose Elementary school 2 _____
Choose Elementary school 3 _____
- IV. the educational standards of the Negro-white and all-Negro schools are the same but the standard of the all-white school is higher
Choose Elementary school 1 _____ Choose Elementary school 2 _____
Choose Elementary school 3 _____

Suppose that you have a child of high school age. There are three high schools available to him in the neighborhood, having comparable facilities,

High school 1 has an all-Negro student population

High school 2 has a 50% mixed Negro-white student population

High school 3 has an all-white student population

Mark with a check your choice for sending your child to high school where:

- I. the educational standards of all three high schools are equal
Choose High sch'l 1 _____ Choose High sch'l 2 _____ Choose High sch'l 3 _____
- II. the educational standards of the Negro-white and the all-white high schools are equal but the standards of the all-Negro school are higher
Choose High sch'l 1 _____ Choose High sch'l 2 _____ Choose High sch'l 3 _____
- III. the educational standards of the all-Negro and all-white high schools are equal but the standard of the Negro-white school is higher
Choose High sch'l 1 _____ Choose High sch'l 2 _____ Choose High sch'l 3 _____
- IV. the educational standards of the Negro-white and all-Negro high schools are equal but the standards of the all-white school are higher
Choose High sch'l 1 _____ Choose High sch'l 2 _____ Choose High sch'l 3 _____

Suppose that you had a son who wished to join a Boy Scout Troop. He asks you for advice in this matter since there are three Troops in the area which he is free to join and which have comparable facilities,

Boy Scout Troop 1 has all-Negro membership

Boy Scout Troop 2 has a 50% mixed Negro-white membership

Boy Scout Troop 3 has an all-white membership

Mark with a check the advice you would give your son about joining a Troop where:

- I. the social-economic backgrounds of members of all Troops are equal
Join Troop 1_____ Join Troop 2_____ Join Troop 3_____
- II. the social-economic backgrounds of members of Negro-white and all-white Troops are equal but backgrounds of members of all-Negro Troop are higher
Join Troop 1_____ Join Troop 2_____ Join Troop 3_____
- III. the social-economic backgrounds of members of all-Negro and all-white Troops are equal but backgrounds of members of Negro-white Troop are higher
Join Troop 1_____ Join Troop 2_____ Join Troop 3_____
- IV. the social-economic backgrounds of members of Negro-white and all-Negro Troops are equal but backgrounds of members of the all-white Troop are higher
Join Troop 1_____ Join Troop 2_____ Join Troop 3_____

Suppose that you had a daughter who wished to join a Girl Scout Troop. She asked you for advice in this matter since there are three Troops in the area which she is free to join and which have comparable facilities,

Girl Scout Troop 1 has all-Negro membership

Girl Scout Troop 2 has a 50% mixed Negro-white membership

Girl Scout Troop 3 has all-white membership

Mark with a check the advice you would give your daughter about joining a Troop where:

- I. the social-economic backgrounds of members of all Troops are equal
Join Troop 1_____ Join Troop 2_____ Join Troop 3_____
- II. the social-economic backgrounds of Negro-white and all-white Troop members are equal but backgrounds of all-Negro Troop members are higher
Join Troop 1_____ Join Troop 2_____ Join Troop 3_____
- III. the social-economic backgrounds of all-Negro and all-white Troop members are equal but the backgrounds of Negro-white Troop members are higher
Join Troop 1_____ Join Troop 2_____ Join Troop 3_____
- IV. the social-economic backgrounds of Negro-white and all-Negro Troop members are equal but the backgrounds of all-white Troop members are higher
Join Troop 1_____ Join Troop 2_____ Join Troop 3_____
